Rapp Bomek

Bomek Group is a global leader in the design, development and manufacturing of advanced door, window and wall safety solutions for global maritime, energy, construction and security markets. Rapp's roots in the maritime industry date back over 100 years. Rapp Bomek is a total supplier to the maritime market offering high quality doors, commissioning, supervising, service, maintenance and spare parts. Our complete range of maritime doors are specially designed for the maritime market, reducing maintenance and improving lifetime cost. Our products are tried and tested to withstand the toughest environments and are resistant to fire, blast, gas, water, intrusion, ballistics, and noise, as well as the harshest of climates. By focusing on quality at every stage of the process from design and development to manufacturing and commissioning, we not only comply with the highest industry standards, we set the standard. Rapp Bomek utilises a comprehensive quality management system, which covers all business areas. We are certified with the following standards:

- Quality Management System NS-EN ISO 9001:2015
- Environment Management System NS-EN ISO 14001:2015
- Industry-specific standards and regulations
